S. 1538	June 23, 1983	S9009-10

Action:
Introduced by Mr. Mathias and Mr. Dole

By Mr. MATHIAS (for himself and Mr. DOLE):

S. 1538. A bill to amend the patent laws of the United States; to the Committee on the Judiciary.

PATENT LAW AMENDMENTS OF 1983

● Mr. MATHIAS. Mr. President, earlier this year Secretary Baldrige sent the President of the Senate a proposed patent reform bill to make several technical improvements in the patent law. In addition, one provision in the bill would institute a new type of patent called a defensive patent. The defensive patent would be a valuable resource for inventors who wish to retain their right to market their invention, but are not concerned about excluding anyone else from doing so.

Ordinarily patents give the inventor exclusive rights for a fixed period of time; the defensive patent would not confer this offensive right to exclude others from working an invention, but would also prevent others from obtaining exclusive rights. In other words, the inventor preserves the ability to practice the invention but forfeits the right to sue others for infringement. The defensive patent would be considerably easier, cheaper, and quicker for the Patent Office to process.

The new option that this weaker type of patent offers would be particularly well suited for Government agencies that deal extensively with patents, such as the Defense Department. The Government sought the patents, not to prevent other people from making or marketing the invention, but to protect itself against suits for infringement. The Patent Office thinks that the Government agencies as well as the Patent Office itself would save money and staff time if defensive patents were available as an alternative to the traditional exclusive rights patent.

I think this idea deserves our close attention and I hope to schedule a hearing at the first opportunity in the Subcommittee on Patents, Copyrights and Trademarks. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows;
