June 17, 1938

Remitter: La Salle Extension University (Class A)--36492

Title: "Corporate Organization and Management" and 12 others

Question: Position of copyright notice questioned.

The copies questioned are perforated indicating that this is a loose-leaf service and that the material is to be inserted in binders. There is an outside title-page on the back of which are listed the members of the editorial staff, advisory board, and additional contributors. On the page opposite this appears the title of the pamphlet and a table of contents. On the back of this page is found the copyright notice. This immediately precedes the text matter which constitutes the work for which copyright protection is sought.

It is the opinion of Mr. Smith and Mr. Wise that the copyright notice is on the back of the title-page and registration should be made accordingly as applied for. Mrs. Brady, on the other hand, feels that there is but one title-page, namely, the cover, which bears the title, and the absence of the notice from the back thereof prevents registration.

Respectfully submitted,

**W. H. Wise**
