

MEMORANDUM

July 19, 1938

Remitter: Manufacturers Record Publishing Company
Title: "Blue Book of Southern Progress 1938"
Question: Adequacy of notice

On the inside title page directly under the title appears the following line:

"Copyright 1938 by the publisher"

The publisher's name does not appear on this page, but is placed in a very prominent position on the cover.

It is the opinion of Mr. Wise and Mr. Smith that registration should be made, but that the applicant should be advised as to a better form of the notice in the future. Mrs. Brady, on the other hand, feels that the notice is inadequate and that the application should be rejected.

Respectfully submitted,

W. E. V. B.

Chairman, Revisory Board
