Notice

MEMORANDUM

January 4, 1939

Remitter: American Automobile Association (72120)--Class A.

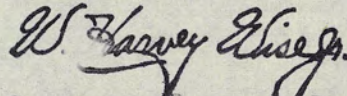

Title: Where Shall We Vacation? Vacation Suggestions Winter Season 1939."

Question: Adequacy of copyright notice.

The notice of copyright in question appears on the cover page of the work and objection is raised because the year date is not entirely clear. It is probably 1938, the figures 1, 9, and 3 being quite clear, and the fourth figure being somewhat blurred.

It is the opinion of Mr. Wise and Mr. Smith that the applicant should be given the benefit of the doubt and registration made as applied for. Mrs. Brady, on the other hand, feels that a blurred figure in the date of the copyright notice results in an inadequate notice, and, therefore, the claim should be rejected.

Respectfully submitted,

Chairman, Revision Board
