

Treaty on Intellectual Property in Respect of Integrated Circuits (The Washington Convention)

Article 1 Establishment of a Union

Article 1 Establishment of a Union

The Contracting Parties constitute themselves into a Union for the purposes of this Treaty.

Article 2 Definitions

For the purposes of this Treaty:

(i) "integrated circuit" means a product, in its final form or an intermediate form, in which the elements, at least one of which is an active element, and some or all of the inter-connections are integrally formed in and/or on a piece of material and which is intended to perform an electronic function,

(ii) "layout-design (topography)" means the three-dimensional disposition, however expressed, of the elements, at least one of which is an active element, and of some or all of the interconnections of an integrated circuit, or such a three-dimensional disposition prepared for an integrated circuit intended for manufacture,

(iii) "holder of the right" means the natural person who, or the legal entity which, according to the applicable law, is to be regarded as the beneficiary of the protection referred to in Article 6,

(iv) "protected layout-design (topography)" means a layout-design (topography) in respect of which the conditions of protection referred to in this Treaty are fulfilled,

(v) "Contracting Party" means a State, or an Intergovernmental Organization meeting the requirements of item (x), party to this Treaty,

(vi) "territory of a Contracting Party" means, where the Contracting Party is a State, the territory of that State and, where the Contracting Party is an Intergovernmental Organization, the territory in which the constituting treaty of that Intergovernmental Organization applies,

(vii) "Union" means the Union referred to in Article 1,

(viii) "Assembly" means the Assembly referred to in Article 9,

(ix) "Director General" means the Director General of the World Intellectual Property Organization,

(x) "Intergovernmental Organization" means an organization constituted by, and composed of, States of any region of the world, which has competence in respect of matters governed by this Treaty, has its own legislation providing for intellectual property protection in respect of layout-designs (topographies) and binding on all its member States, and has been duly authorized, in accordance with its internal procedures, to sign, ratify, accept, approve or accede to this Treaty.

Article 3 The Subject Matter of the Treaty

(1)(a) Each Contracting Party shall have the obligation to secure, throughout its territory, intellectual property protection in respect of layout-designs (topographies) in accordance with this Treaty. It shall, in particular, secure adequate measures to ensure the prevention of acts considered unlawful under Article 6 and appropriate legal remedies where such acts have been committed.

(b) The right of the holder of the right in respect of an integrated circuit applies whether or not the integrated circuit is incorporated in an article.

(c) Notwithstanding Article 2(i), any Contracting Party whose law limits the protection of layout-designs (topographies) to layout-designs (topographies) of semiconductor integrated circuits shall be free to apply that limitation as long as its law contains such limitation.

(2)(a) The obligation referred to in paragraph (1)(a) shall apply to layout-designs (topographies) that are original in the sense that they are the result of their creators' own intellectual effort and are not commonplace among creators of layout-designs (topographies) and manufacturers of integrated circuits at the time of their creation.

(b) A layout-design (topography) that consists of a combination of elements and interconnections that are commonplace shall be protected only if the combination, taken as a whole, fulfills the conditions referred to in subparagraph (a).

Article 4 The Legal Form of the Protection

Each Contracting Party shall be free to implement its obligations under this Treaty through a special law on layout-designs (topographies) or its law on copyright, patents, utility models, industrial designs, unfair competition or any other law or a combination of any of those laws.

Article 5 National Treatment

(1) Subject to compliance with its obligation referred to in Article 3(1)(a), each Contracting Party shall, in respect of the intellectual property protection of layout-designs (topographies), accord, within its territory,

(i) to natural persons who are nationals of, or are domiciled in the territory of, any of the other Contracting Parties, and

(ii) to legal entities which or natural persons who, in the territory of any of the other Contracting Parties, have a real and effective establishment for the creation of layout-designs (topographies) or the production of integrated circuits,

the same treatment that it accords to its own nationals.

(2) Notwithstanding paragraph (1), any Contracting Party is free not to apply national treatment as far as any obligations to appoint an agent or to designate an address for service are concerned or as far as the special rules applicable to foreigners in court proceedings are concerned.

(3) Where the Contracting Party is an Intergovernmental Organization, "nationals" in paragraph (1) means nationals of any of the States members of that Organization.

Article 6 The Scope of the Protection

(1)(a) Any Contracting Party shall consider unlawful the following acts if performed without the authorization of the holder of the right:

(i) the act of reproducing, whether by incorporation in an integrated circuit or otherwise, a protected layout-design (topography) in its entirety or any part thereof, except the act of reproducing any part that does not comply with the requirement of originality referred to in Article 3(2),

(ii) the act of importing, selling or otherwise distributing for commercial purposes a protected layout-design (topography) or an integrated circuit in which a protected layout-design (topography) is incorporated.

(b) Any Contracting Party shall be free to consider unlawful also acts other than those specified in subparagraph (a) if performed without the authorization of the holder of the right.

(2)(a) Notwithstanding paragraph (1), no Contracting Party shall consider unlawful the performance, without the authorization of the holder of the right, of the act of reproduction referred to in paragraph (1)(a)(i) where that act is performed by a third party for private purposes or for the sole purpose of evaluation, analysis, research or teaching.

(b) Where the third party referred to in subparagraph (a), on the basis of evaluation or analysis of the protected layout-design (topography) ("the first layout-design (topography)"), creates a layout-design (topography) complying with the requirement of originality referred to in Article 3(2) ("the second layout-design (topography)"), that third party may incorporate the second layout-design (topography) in an paragraph (1) in respect of the second layout-design (topography) without being regarded as infringing the rights of the holder of the right in the first layout-design (topography).

(c) The holder of the right may not exercise his right in respect of an identical original layout-design (topography) that was independently created by a third party.

(3)(a) Notwithstanding paragraph (1), any Contracting Party may, in its legislation, provide for the possibility of its executive or judicial authority granting a non-exclusive license, in circumstances that are not ordinary, for the performance of any of the acts referred to in paragraph (1) by a third party without the authorization of the holder of the right ("non-voluntary license"), after unsuccessful efforts, made by the said third party in line with normal commercial practices, to obtain such authorization, where the granting of the non-voluntary license is found, by the granting authority, to be necessary to safeguard a national purpose deemed to be vital by that authority; the non-voluntary license shall be available for exploitation only in the territory of that country and shall be subject to the payment of an equitable remuneration by the third party to the holder of the right.

(b) The provisions of this Treaty shall not affect the freedom of any Contracting Party to apply measures, including the granting, after a formal proceeding by its executive or judicial authority, of a non-voluntary license, in application of its laws in order to secure free competition and to prevent abuses by the holder of the right.

(c) The granting of any non-voluntary license referred to in subparagraph (a) or subparagraph (b) shall be subject to judicial review. Any non-voluntary license referred to in subparagraph (a) shall be revoked when the conditions referred to in that subparagraph cease to exist.

(4) Notwithstanding paragraph (1)(a)(ii), no Contracting Party shall be obliged to consider unlawful the performance of any of the acts referred to in that paragraph in respect of an integrated circuit incorporating an unlawfully reproduced layout-design (topography) where the person performing or ordering such acts did not know and had no reasonable ground to know, when acquiring the said integrated circuit, that it incorporates an unlawfully reproduced layout-design (topography).

(5) Notwithstanding paragraph (1)(a)(ii), any Contracting Party may consider lawful the performance, without the authorization of the holder of the right, of any of the acts referred to in that paragraph where the act is performed in respect of a protected layout-design (topography), or in respect of an integrated circuit in which such a layout-design (topography) is incorporated, that has been put on the market by, or with the consent of, the holder of the right.

Article 7 Exploitation; Registration, Disclosure

(1) Any Contracting Party shall be free not to protect a layout-design (topography) until it has been ordinarily commercially exploited, separately or as incorporated in an integrated circuit, somewhere in the world.

(2)(a) Any Contracting Party shall be free not to protect a layout-design (topography) until the layout-design (topography) has been the subject of an application for registration, filed in due form with the competent public authority, or of a registration with that authority; it may be required that the application be accompanied by the filing of a copy or drawing of the layout-design (topography) and, where the integrated circuit has been commercially exploited, of a sample of that integrated circuit, along with information defining the electronic function which the integrated circuit is intended to perform; however, the applicant may exclude such parts of the copy or drawing that relate to the manner of manufacture of the integrated circuit, provided that the parts submitted are sufficient to allow the identification of the layout-design (topography).

(b) Where the filing of an application for registration according to subparagraph (a) is required, the Contracting Party may require that such filing be effected within a certain period of time from the date on which the holder of the right first exploits ordinarily commercially anywhere in the world the layout-design (topography) of an integrated circuit; such period shall not be less than two years counted from the said date.

(2) If a mutually satisfactory solution is not reached within a reasonable period of time through the consultations referred to in paragraph (1), the parties to the dispute may agree to resort to other means designed to lead to an amicable settlement of their dispute, such as good offices, conciliation, mediation and arbitration.

(3)(a) If the dispute is not satisfactorily settled through the consultations referred to in paragraph (1), or if the means referred to in paragraph (2) are not resorted to, or do not lead to an amicable settlement within a reasonable period of time, the Assembly, at the written request of either of the parties to the dispute, shall convene a panel of three members to examine the matter. The members of the panel shall not, unless the parties to the dispute agree otherwise, be from either party to the dispute. They shall be selected from a list of designated governmental experts established by the Assembly. The terms of reference for the panel shall be agreed upon by the parties to the dispute. If such agreement is not achieved within three months, the Assembly shall set the terms of reference for the panel after having consulted the parties to the dispute and the members of the panel. The panel shall give full opportunity to the parties to the dispute and any other interested Contracting Parties to present to it their views. If both parties to the dispute so request, the panel shall stop its proceedings.

(3) Any Contracting Party shall have the right not to apply this Treaty to any layout-design (topography) that exists at the time this Treaty enters into force in respect of that Contracting Party, provided that this provision does not affect any protection that such layout-design (topography) may, at that time, enjoy in the territory of that Contracting Party by virtue of international obligations other than those resulting from this Treaty or the legislation of the said Contracting Party.
