JOINT RESOLUTION

To enable the United States to organize and hold a diplomatic conference in the United States in fiscal year 1970 to negotiate a Patent Corporation Treaty and authorize an appropriation therefor.

Whereas all countries issuing patents, and especially countries such as the United States having an examination system, deal with large and constantly growing numbers of patent applications of increasing complexity; and

Whereas in any one country a considerable number of patent applications duplicate or substantially duplicate applications relating to the same inventions in other countries, thereby increasing further the volume of applications to be processed; and

Whereas a resolution of the difficulties attendant upon duplications in filings and examination would result in more eco-

nomical, quicker, and more effective protection for inventions throughout the world thus benefiting inventors, the general public, and government; and

Whereas a treaty for international patent cooperation providing a central filing, search, and examination system should provide a practicable means of resolving the difficulties arising out of the duplications in the filing and examination of patent applications; and

Whereas governments concerned with international patent problems have spent a number of years in consultation and in the development of a draft treaty for international patent cooperation to alleviate these problems: Now, therefore, be it
